ABOUT US

Over the years, Jim Vierra & Friends has had the honor of working with some of the top talent in Nashville, Tennessee . All songs by Jim Vierra & Friends are original, written by Jim Vierra himself or some of his closest friends and fellow songwriters. Jim Vierra & Friends continue to enjoy the ride and experiences they've had, knowing the best has yet to come.

Jim Vierra's fresh and heart-warming approach makes him one of the top music producers/songwriters in the Nashville area. Hypnotized by his smooth and soulful country rhythms you'd never know that Vierra doesn't even listen to country music that much.

He states, " What is funny is I don't even listen to much country music at all. I love Jazz and old rock n roll. The music just comes to me and happened to have that country flare." He prides himself on hand-selecting top quality demo singers to bring his music to life. With Jim, the lyrics comes first, but sometimes he already has a tune in his head.

Having experience in producing both live performance and studio sessions, Vierra is a flexible and dynamic producer. Although there are no impending release dates, Jim Vierra is constantly writing songs and working with local Nashville artists.
